Features and Applications

5083 aluminum sheet belongs to Al-Mg-Si aluminum alloys. Its main contents are Magnesium and Silicon except Aluminum. Over 4.0% of Magnesium enables 5083 aluminum plate to have excellent resistance to correction, and easily to welded. By adding cooper, 5083 aluminum plate has 28% Electrical conductivity. 5083 aluminum plate also has good forming characteristic for either hot or cold working. But hardening is accomplished by means of cold working only.

Strength of Mingtai Al

1. A listed company with high reputation.
2. About 20 years’ developmental history, skilled workers.
3. Enough raw material supplying, fast delivery guaranteed.
4. DC product, and can live up to EN, JIS, ASTM standards.
5. Obtain many strict quality certifications, SGS, DNV GL, CCS etc.
6. Reasonable price, good quality.
Packaging and Delivery of Mingtai Al

Aluminum products of Mingtai Al. meet the export standards. Plastic film and brown paper can be covered at customers’ need. What’s more, wooden case or wooden pallet is adopted to protect products from damage during the delivery, especially from seawater. There are two kinds of packaging, which are eye to wall and eye to sky. Customers can choose either of them for their convenience. For more details, please contact us.

Generally speaking, there are 2 tons in one package, and loading 18-22 tons in 1 × 20’ container, and 20-24 tons in 1 × 40’ container.
